-ABSTRACT-

This study aims at considering a great figure of the most distinguished personalities of All –haddith. School in Al-Andalus in the fifth Hijri century; he is AL-IMAM MOHAMMAD BEN ABI NASER AL-HUMEIDYE. This study also aims to shed light on Hadith effort he offered to serve AS-SAHIHEIN through his book known as " AL-JAME' BAIN AL-SAHIHEIN".

Through out his study , the researcher employed the inductive method to accomplish all that is related to the subject, and an analytical approach to process the information. To achieve a true understanding of it.

The study came to a conclusion that AL-IMAM AL-HUMEIDYE sought knowledge at an early age in MAYOURQA Island in the East of AL-Andalus. He was the student of IBN HAZIM; he was affected by the interpretation and accreditation people in some qualities. His book "AL-JAME' BAIN AS-SAHIHEIN one of the best publications in his field. as he retained a scientific material whose sources are lost, he dealt with the sources as a skillful critic who doesn't accept things as they are.

As for the additions, that he added on as –SAHIHEIN or one of them from other books, were about 87 all. The additions that he distinguished the text from the support of AS_SAHIHEIN or one of them using different expressions, some of these addition were true and some are weak.
